2703 Craig Rd.
Eau Claire, WI 54701

***Please note this event room is not handicap accessible. We apologize for any inconvenience.**

OVERVIEW: Grain engulfment incidents are anticipated to increase this year due to the unusually wet harvest year experienced by a large portion of the country and the fact that a lot of grain went into storage wetter than normal. Out of condition grain can pose serious life threatening hazards to grain elevator and feed mill workers, farmers and their family members. Based on this concern, the four OSHA regional offices in the primary grain growing regions of the country are promoting and encouraging companies as well as farmers and their families to participate in a Grain Handling Safety Stand Down event the week of March 27th. WABA, Wisconsin Corn Growers Association and Wisconsin OSHA Staff are fully supportive of this Grain Safety Stand Down event and are pleased to offer these educational seminars.

WHO SHOULD ATTEND: - Production Employees - Management/Supervisors - SH&E Managers
- Farmers and Family Members - Farm Employees - Education/Outreach Sources
- Insurance/Risk Managers

TOPICS COVERED: - Grain Engulfment Awareness and Prevention - Machine Guarding
- Entanglement Hazards - Lockout/Tagout - Combustible Dust - Bin Entry Procedures and more!!

REGISTRATION: Register online by going to www.wiagribusiness.org. and click on the Registration Store tab. Deadline for registration is March 23, 2017. Seminar is provided at **NO COST TO YOU!** Complimentary coffee, water and doughnuts will be provided. Questions?? please call 608-223-1111.
