SAFETY DAY 2023 PROGRAM SCHEDULE

8:00 – 8:30 Registration

8:30 – 8:50 Welcome/Opening Presentation
Jim Nolte WABA Safety Director
Angela Bunker WABA Safety Committee

8:50 – 10:10 **Keynote Session #1: My Story of Surviving a Coal Dust Explosion** **Wilderness 14**
Presented by: Joe Fredrickson – Occupational Health & Safety Technician – MN Power
Even when you do everything right, things can go terribly wrong. You will hear a story about a combustible coal dust explosion in October 2012 from the survivor, Joe Fredrickson, including what was going through his mind at the time, his hospital stays, the effect it had on his friends and family and his ongoing struggle with PTSD. You don't want to miss this powerful and impactful account!

10:10 – 10:20 Room Change/Break

10:20 – 11:20 Breakout Sessions

Session #2: Top 10 Things Not to Tell Your Loss Control Representative **Wilderness 14**
Presented by: Angela Bunker – Sr. Loss Control Specialist – American Family Insurance
Loss control is a valuable resource that accompanies your insurance program. Let's make sure your company and employees show the best aspects of your company's safety program when working with safety professionals. We will review items and actions to avoid as well as review resources that can help take your safety culture to the next level. Be ready to think of loss control in a new perspective and learn ways to utilize additional safety services in your safety culture!

Session #3: Worker Protection Standard-What You Need to Know **Glacier A**
Presented by: Alyssa Foss – Worker Protection Program Manager - DATCP
This presentation will cover the federal Worker Protection Standard (WPS) as it relates to your business operations and how you can provide added value to ensure your customers are up-to-date, as necessary, with having a program in place. DATCP routinely conducts inspections on-farm related to WPS that will be covered.

Session #4: What You Need to Know if You Have CDL Drivers **Glacier B**
Presented by: Grant Barnes – Wisconsin Federal Program Specialist - FMCSA
This presentation will cover some of the common violations assessed to employers with CDL drivers and what you can do to prevent these from happening to you. If there are any questions you may have that have gone unanswered this is the place to get the right answers.

11:20 – 11:30 Room Change/Break

SAFETY DAY 2023 PROGRAM SCHEDULE

11:30 – 12:30 Repeat Breakouts

Session #2: Top 10 Things Not to Tell Your Loss Control Representative Wilderness 14
Presented by: Angela Bunker – Sr. Loss Control Specialist – American Family Insurance

Session #3: Worker Protection Standard-What You Need to Know Glacier A
Presented by: Alyssa Foss – Worker Protection Program Manager - DATCP

Session #4: What You Need to Know if You Have CDL Drivers Glacier B
Presented by: Grant Barnes – Wisconsin Federal Program Specialist - FMCSA

12:30 – 1:15 Lunch

1:15 – 2:15 **General Session #5: OSHA Regulatory Update Wilderness 14**
Presented by: Jess McCluer – Vice President Safety and Regulatory Affairs - NGFA
This session will provide participants with an inside look at OSHA's priorities for worker safety. Updates will be provided on the current status and enforcement efforts of OSHA's National Emphasis Programs for Covid-19 and Heat Illness. Proposed rulemaking, staffing appointments, agency operations and a review of OSHA grain inspections and citations will also be discussed.

2:15 – 2:25 Break

2:25 – 3:25 **General Session #6: OSHA's Heat Illness National Emphasis Program Wilderness 14**
Presented by: Bethany McCurdy – Senior Counsel – Michael Best & Friedrich
OSHA has literally turned up the "heat" in their inspection efforts. Even though a heat injury and illness standard is still several years away, that hasn't stopped OSHA from initiating a Heat Injury and Illness National Emphasis Program (NEP). Inspections are occurring and citations are being issued. This presentation will cover key components of the NEP and address some of the citations that have been issued by OSHA. You will come away with ideas and suggestions you can implement for your organization so you don't get "burned" by this NEP as well as protecting your employees from the hazards posed by excessive heat.

3:25 – 3:30 Wrap Up and Closing
